Art Unit: 1724

The amendments filed September 30, 2003 and October 2, 2003 have been entered, and claims 29-35 and 48 are now <u>allowed</u>. Accordingly, this application is in condition for allowance except for the following formal matters:

- (1) The disclosure is again objected to because the first sentence of the specification following the title fails to contain a reference to the prior international application (i.e. PCT/GR97/00018) for which benefit, under 35 § U.S.C. 120, is being sought (see the declaration, page 1, penultimate line), as required by 37 C.F.R. § 1.78(a)(2). Also, the relationship between this application and the prior application must be indicated, as further required by 37 C.F.R. § 1.78(a)(2).
- (2) The abstract of the disclosure is objected to because it is too long (i.e. it exceeds 150 words). It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. Correction is required. See 37 CFR § 1.72(b); and MPEP § 608.01(b).
- (3) This application contains claims 36-47 corresponding to inventions nonelected with traverse in Paper No. 10. However, since Applicant has filed a Notice of Appeal in this application, (i.e. on October 7, 2003), these claims must now be cancelled in accordance with 37 CFR 1.144.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
